

How to add your photo to the frame:

1. **Open the link:** Click on the Twibbonize campaign link provided to you.
 - a. General OMED overlay:
 - b. "I'm presenting" overlay:
2. **Select your photo:** Scroll down and click the Choose a Photo (or "Pilih Foto") button. This will open your device's gallery or file folder.
3. **Adjust the fit:** Once your photo appears inside the frame, use your fingers (on mobile) or mouse (on desktop) to drag, zoom or rotate the image until it fits perfectly within the design.
4. **Process the image:** Click the Next button. Wait a moment for the system to render your final image.
5. **Download:** Click the Download button to save the framed photo to your device.

Quick tips for best results:

- **Use a high-res photo:** To avoid blurriness, use a clear, high-quality original image.
- **Center yourself:** Make sure your face isn't cut off by any of the frame's decorative elements.
- **Check your downloads:** On most phones, the finished image will save directly to your Downloads or Recents folder in your gallery.
