OSTEOPATHIC
ASSOCIATION

OMED[®]24

Osteopathic Medical Education Conference
Sept. 20-22 • San Antonio, TX

On-Demand Session Information

OMED24 will bring together osteopathic physicians and healthcare teams for one event. Participate in OMED virtually through December 31, 2024. Earn up to 30 hours of AOA Category 1-A Credits and 20 hours of AOA Category 1-B Credits.

»» Continuing Medical Education (CME) Information

OMED24 is supported by independent educational grants from commercial interests. Complete information will be provided to participants prior to the activity. Conflict of Interest Disclosures for individuals in control of content will also be provided before the activity starts.

Overall Education Objectives

- Highlight the evidence on new, revised, and standard treatment approaches for a variety of medical conditions as they relate to physicians
- Review revisions in clinical practice guidelines and evaluate clinical practice implications
- Describe updates in clinical decision tools for screening and differential diagnoses of diseases

Designation

The American Osteopathic Association (AOA) designates this program for a maximum of 40 AOA Category 1-A Credits* and 20 AOA Category 1-B Credits and will report CME credits commensurate with the physician's participation in this program. The AOA designates this blended activity for 60 *AMA PRA Category 1 Credit*[™].*

Physicians should only claim credit commensurate with the extent of their participation in the activity.

*Virtual attendees are eligible for a maximum of 50 AOA Category 1 Credits (30 1-A and 20 1-B) or 50 *AMA PRA Category 1 Credit*[™].

Claim 2 AOA Category 2-B Credits by Viewing ePosters

Participants may claim up to 2 AOA Category 2-B Credits by viewing ePosters at the link that will be provided closer to OMED. To claim this credit and receive a certificate, the participant must complete and submit a separate attestation form to gdillard@osteopathic.org. The AOA will email a certificate that includes the number of AOA Category 2-B Credits earned once the attestation form is received and the hours are verified.

The American Osteopathic Association (AOA) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CME/Certificate of Attendance

To claim your CME certificate or your certificate of attendance, you will need to complete an evaluation and CME credit hour attestation by January 31, 2025.

Disclaimer

The information in this educational activity is provided for general medical education purposes only and is not meant to substitute for the independent medical judgment of a physician relative to diagnostic and treatment options of a specific patient's medical condition. The viewpoints expressed in this CME activity are those of the authors/faculty. They do not represent an endorsement by the AOA. In no event will the AOA be liable for any decision made or action taken in reliance upon the information provided through this CME activity.

Friday Keynote – Featuring J.D. Polk, DO

J.D. Polk, DO, is the agency Chief Health and Medical Officer of the National Aeronautics and Space Administration (NASA), based in Washington, D.C. He assumed this position in November 2016, bringing with him a wealth of experience in the fields of emergency medicine, disaster medicine, space medicine, and medical management.

Prior to his current role at NASA, Dr. Polk held several high-profile positions, including serving as the Dean of Medicine for Des Moines University's College of Osteopathic Medicine, the Assistant Secretary (Acting) for Health Affairs and Chief Medical Officer of the U.S. Department of Homeland Security (DHS), and the Chief of Space Medicine for NASA's Johnson Space Center in Houston, Texas.

Throughout his career, Dr. Polk has demonstrated a strong commitment to public service, serving on the boards of organizations such as the Red Cross of Greater Iowa, ChildServe of Iowa, and the American Association for Physician Leadership. He is also a Fellow of several prestigious medical associations, including the American College of Osteopathic Emergency Physicians, the Aerospace Medicine Association, and the American Association for Extreme and Wilderness Medicine.

Highly credentialed, Dr. Polk holds a degree in Osteopathic Medicine from A.T. Still University, as well as multiple master's degrees in Space Studies, Medical Management, and Public Health. He is triple board certified in emergency medicine and aerospace medicine and has been widely recognized for his contributions to the field, receiving numerous awards and commendations from various organizations, including NASA, the Federal Bureau of Investigations, and the U.S. Air Force.

Friday Keynote – Featuring Tamika Catchings

Tamika Catchings is a retired professional basketball player who played for the Indiana Fever throughout her entire 15-year Women's National Basketball Association (WNBA) career. In 2012, Ms. Catchings won the WNBA championship and was awarded the WNBA Most Valuable Player Award in 2011. In addition to countless other awards and accolades, she received four Olympic gold medals. In 2011, Ms. Catchings was voted as one of the WNBA's Top 15 Players of All Time by fans and was later named in two more top lists in 2020 and 2021.

From 2012 to 2016, Ms. Catchings served as the president of the WNBA Players Association. She was inducted into the Women's Basketball Hall of Fame in 2020. In 2004, she founded a charitable organization called the Catch the Stars Foundation that provides basketball camps, fitness clinics, mentoring, and literacy programs for underprivileged children. In 2008, Ms. Catchings was awarded the Dawn Staley Community Leadership Award in recognition of her efforts with the Catch the Stars Foundation and her work throughout the Indianapolis community.

The AOA recognizes recipients of the following awards:

Journal of Osteopathic Medicine Awards
Diversity, Equity, and Inclusion Unification Awards

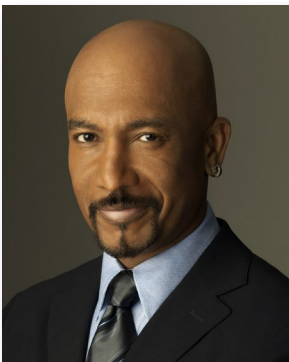

[Return to Top](#)

Saturday Keynote – Featuring Kevin O’Connor, DO

Kevin O’Connor, DO, is a decorated military physician who served in the U.S. Army for over 20 years. During his military service, Dr. O’Connor received the Combat Medic Badge. He has also dedicated 15 years to caring for the nation’s chief leaders as a key member of the White House Medical Unit, serving under multiple administrations. Dr. O’Connor first served as a physician in the White House during the George W. Bush administration for 3 years, later becoming then-Vice President Joe Biden’s physician and, subsequently, in 2021, Physician to the President.

In 2013, he was inducted into the Order of Military Medical Unit. He is currently on the faculty at George Washington University, serving as an associate professor of health, human function, and rehabilitation services. In 2020, Dr. O’Connor was appointed as the medical director of St. Bonaventure University’s Franciscan Health Care profession program. In 2017, Dr. O’Connor collaborated on and contributed to the creation of a health care program for veterans. Most recently, Dr. O’Connor received a presidential citation, awarded to him at the AOA’s annual House of Delegate meeting.

Saturday Keynote – Featuring Montel Williams

Montel Williams is a multifaceted individual who has overcome remarkable personal challenges and leveraged his experiences to become a celebrated media personality, a decorated former marine and naval officer, and a dedicated advocate for health, veterans, and various social causes.

Despite battling Multiple Sclerosis for over 25 years and recovering from a stroke, Mr. Williams has demonstrated remarkable resilience and perseverance. His extensive work as a health advocate has significantly influenced public discussions on healthcare, making him an influential voice in the health sector.

Mr. Williams's military accolades, including two Meritorious Service Medals, two Navy Commendation Medals, and two Navy Achievement Medals, along with his academic achievements, such as a degree in General Engineering from the prestigious Naval Academy and additional qualifications in Russian and Mandarin, have provided him with a unique perspective on problem-solving and leadership during times of adversity.

Beyond his media career, Mr. Williams is a best-selling author, an Emmy Award-winning television host, and a successful actor. He also hosts two compelling podcasts that delve into topics ranging from cannabis to societal issues, health, and wellness. Notably, Mr. Williams's philanthropic efforts, which include supporting organizations focused on veterans' welfare, diversity, children's well-being, and animal rights, further exemplify his deep-rooted passion for making a positive impact on various communities.

The AOA recognizes recipients of the following awards:

Outstanding Affiliate Awards
Mentor of the Year Award

»» OMED24 On-Demand Specialty College Participation

OMED²⁴
Osteopathic Medical Education Conference

[Return to Top](#)

Addiction Medicine

The **American Osteopathic Academy of Addiction Medicine (AOAAM)** is offering 15 hours of CME at OMED 2024. Sessions that meet the training requirement for all DEA-registered practitioners on the treatment and management of patients with opioid or other substance use disorders are noted with an asterisk (*). Educational sessions will inform practicing osteopathic physicians about improving clinicians' ability to treat substance use disorders in specialized health populations such as adolescents, pregnant women, healthcare professionals, and palliative care populations. There will be a particular focus on addiction in the rural population and consideration of how to increase access to care through novel care-delivery models such as mobile treatments and group-based virtual MOUD delivery as well as training resident physicians to practice addiction medicine in the rural context. In addition, special topics related to current practice will include navigating challenges related to the dramatic rise of methamphetamine, fentanyl, cannabis, designer drugs, and gambling in our populations.

Allergy and Immunology

The **American Osteopathic College of Allergy and Immunology (AOCAI)** will present lectures covering topics on gene therapy, asthma, allergic rhinitis, and current recommendations on vaccinations. These presentations will explore the present use and future use of therapeutic options for genetic intervention; the mechanism of pesticide exposure that may trigger asthma attacks, exacerbate asthma, or increase the risk of developing asthma; the importance of the interaction of early exposure to microbes and the induction of immune tolerance; the different endotypes of rhinitis; and updates on the current recommendations of the Advisory Committee on Vaccination Practices (ACIP) and the Center for Disease Control (CDC).

Anesthesiology

The **American Osteopathic College of Anesthesiologists (AOCA)** will address the medical skills necessary for anesthesia practice. Participants can align their practice goals to stay current with medical education and improve patient outcomes. Sessions will cover perioperative management of patients, facilitating and navigating mental health issues in the perioperative period, ICU management, critical care during a crisis, and physician health and well-being.

Dermatology

The **American Osteopathic College of Dermatology (AOCD)** is proud to provide educational courses to the virtual OMED 2024 platform. All AOCD CME activities are planned by a committee comprised of AOA Board Certified Osteopathic Dermatologists. The AOCD will provide a diversified CME program focusing on the art and science of Dermatology. Information will be presented through lectures. Join the AOCD sessions and update your knowledge on topics ranging from dermatology history, body contouring, cosmetic dermatology, updates in pediatric dermatology, atopic dermatitis update, Native American Dermatology, and other interesting topics. As a result of attending these activities, physicians will gain knowledge in helping patients to change their behavior to assist them in their treatment.

[Return to Top](#)

Emergency Medicine

The **American College of Osteopathic Emergency Physicians (ACOEP)** will cover emergency medicine in various settings, including the family medicine office, urgent care, and emergency departments. The information presented, developed by ACOEP, will be valuable to physicians in both community and academic settings. Though comprehensive in scope, the lecture format will be abbreviated presentations by speakers of various related and complementary specialties.

Family Medicine

The **American College of Osteopathic Family Physicians (ACOFP)** offers a diverse range of educational sessions covering innovative topics in Family Medicine. As Family Medicine plays a crucial role in healthcare, ACOFP ensures that its members are equipped with the latest knowledge and skills in the field. In collaboration with sister societies, ACOFP also provides interdisciplinary education, allowing healthcare professionals to learn from and collaborate with colleagues from different disciplines. With a focus on comprehensive and holistic healthcare, ACOFP is dedicated to advancing the practice of Family Medicine and promoting excellence in patient care.

Hematology

The **American Society of Hematology (ASH)** will provide robust, current educational content, including understanding chronic leukemias, CAR T-cell therapy, sickle cell disease, abnormal newborn screens, overview of peripheral blood and bone marrow assessment, easy bleeding and bruising, palliative care approaches, diagnosing and managing acute thrombocytopenia, CLL, cell therapy, common CBC abnormalities, the pathway to cure multiple myeloma, and pediatric sickle cell care for the general physician. This wide range of current, high-interest topics for all osteopathic physicians and medical students will help inform clinical practices, increase awareness, and educate patients.

Internal Medicine

The **American College of Osteopathic Internists (ACOI)** will have sessions on cardiology, palliative care, geriatric medicine, pulmonary medicine, endocrinology, hospital and office medicine, and gastroenterology. Educational sessions will include improving physicians' ability to treat and diagnose GI disorders, learning how oxygen therapy in lung disease may help, discussing how to deal with difficult end-of-life issues, and more. ACOI is very excited to be able to provide virtual internal medicine CME during OMED24!

Military

The **Association of Military Osteopathic Physicians and Surgeons (AMOPS)** has developed sessions that will introduce attendees to Military Medicine: on Land, Sea, and Air, as well as Military Medicine: Front Lines to Civilian Trauma Centers! Sessions include aerospace medicine, medical support to the warfighter, integrating military medicine in the civilian world, burn care, TBI, FAST exams, and a demonstration of Osteopathic Manipulative Medicine's (OMM) use on the battlefield, shipboard, and flightlines. Both military physicians and civilian physicians will benefit from these sessions.

[Return to Top](#)

Neurology/Psychiatry

The **American College of Osteopathic Neurologists and Psychiatrists (ACONP)** educational sessions will cover a range of topics in the field such as headaches in pregnancy, happiness and resilience, cannabis use in psychiatric care, myasthenia gravis update, post-traumatic stress disorder, Prevent 2 Protect, Safe and Sound Schools, and much more.

Obstetrics/Gynecology

The **American College of Osteopathic Obstetricians and Gynecologists (ACOOG)** will address common and uncommon health issues unique to women and physicians from multiple specialties that provide women's healthcare. Participants will gain a comprehensive insight into relevant medical problems and a fundamental approach to addressing and improving common health concerns.

Occupational and Preventive Medicine

The **American Osteopathic College of Occupational and Preventive Medicine (AOCOPM)** will address current occupational, environmental, and preventive medicine topics. Topics will be divided into three divisions: public health and general preventive medicine, occupational medicine, and aerospace medicine. Focus areas within these divisions include correctional medicine, undersea hyperbaric medicine, and disability impairment medicine.

Orthopedics

The **American Osteopathic Academy of Orthopedics (AOAO)** will address musculoskeletal issues commonly encountered by primary care physicians, general surgeons, and orthopedic surgeons. In addition, educational sessions will cover topics such as pediatric orthopedics, women's health, sports medicine, and common foot and ankle conditions.

Osteopathy

The **American Academy of Osteopathy (AAO)** will showcase distinguished faculty discussing the concepts of motion and stillness in osteopathic medicine. This will include special emphasis on lymphatics, gait issues, hypermobility, tremor, spasticity, concussion, and OMT on the sidelines. This engaging program will provide attendees with comprehensive and state-of-the-art information about how physicians can diagnose and treat these and other conditions in a comprehensive manner including utilization of a wide variety of OMT approaches.

Pathology

The American Osteopathic College of Pathologists (AOCP) is proud to provide educational courses to the virtual OMED 2024 platform. All AOCP CME activities are planned by a committee comprised of AOA Board Certified Osteopathic Pathologists. The AOCP will provide a diversified CME program focusing on the art and science of Pathology. Information will be presented through lectures. Join the AOCP sessions and update your knowledge on topics ranging from blood transfusions, neuropathology trauma and non-traumatic, forensic photography, pediatric pathology, and many more. After attending these activities, physicians will gain a better knowledge of pathology in many forms.

[Return to Top](#)

Pediatrics

The **American College of Osteopathic Pediatricians (ACOP)** plans to address current topics related to the care of children, including sessions on neonatal/perinatal medicine, adolescent medicine, pediatric infectious disease, immigrant health, pediatric hot topics, practical pediatrics, orthopedics, and OMM/OMT. In addition to the clinical topics, ACOP is also organizing a session to discuss the decline in students entering pediatric residencies and how to address the shortage.

Physical Medicine and Rehabilitation

The **American Osteopathic College of Physical Medicine and Rehabilitation (AOCPMR)** program will focus on optimizing physiatry and physical medicine and rehabilitation in today's healthcare environment. Educational session topics will include stroke care, anti-doping, tendinopathy, fMRI scans, TBI/concussion, an in-depth look at SIJ, and inpatient care, among other topics.

Prolotherapy

The **American Osteopathic Association of Prolotherapy Regenerative Medicine (AOAPRM)** program starts with the basic skills required to perform a prolotherapy treatment. Platelet-rich plasma (PRP) is discussed as an advanced prolotherapy treatment for cases that are more complicated. The latest treatment modalities for the cervical, lumbar, and thoracic spine will be covered. Each day, the didactic sessions will conclude with practical clinical assessments.

Radiology

The **American Osteopathic College of Radiology (AOCR)** will provide educational content across high-interest topics of interest to the general radiologist. In addition, this program will facilitate interdisciplinary collaboration with other medical specialties.

Sports Medicine

The **American Osteopathic Academy of Sports Medicine (AOASM)** will present "Sports Medicine: A Pathway to Whole Body Wellness." The program includes sports medicine topics relevant to physicians in all specialties. We will provide an in-depth review of common musculoskeletal conditions including diagnostic evaluation, management, and return-to-play considerations across pediatric, adolescent, adult, geriatric, and disabled athlete populations. The program will also explore concepts of wellness and fostering health, in addition to interventional management and rehabilitation of injuries. All topics will highlight the osteopathic approach to evaluation and management. We will also look at opportunities to engage populations and institutions that are underserved by Sports Medicine professionals. For additional information, contact the AOASM National Office at info@aoasm.org, or visit the AOASM website at www.aoasm.org.

Student Track

The OMED24 Student Track will kick off on Saturday, September 21, and all OMED attendees are welcome! The content, carefully selected by the Student Osteopathic Medical Association, will focus on supplementing the knowledge provided by the COMs and enhancing the opportunities for osteopathic medical students to match into their residencies of choice.

OMED24 AOA Poster Session and Student Poster Competition

The AOA Bureau of Osteopathic Research and Public Health and the Bureau of International Osteopathic Medicine hold their International and Non-International Research Poster Session and Student Poster Competition annually during OMED. The Research Poster Session allows investigators to share their research with a wider osteopathic audience. After a competitive Call for Research Abstracts, abstracts are selected for presentation in a poster format. Students whose research projects are selected can choose to participate in the International and Non-International Student Poster Competition. During this competition, student researchers present their projects to teams of judges in a live, virtual format. Cash prizes are awarded, and accepted abstracts are published in The Journal of Osteopathic Medicine.

The annual International and Non-International Poster Session and Student Poster Competition allow researchers to spread their research to a broader audience. Cash prizes are awarded to the nine top-scoring non-international presenters and the two top-scoring international presenters. Accepted abstracts are published in *The Journal of Osteopathic Medicine*.

All poster presentations fall within four non-international research categories: Clinical (C), Basic Science (B), Health Services (H), Public Health (PH) research focused on health disparities and social determinants of health, and International Health (INT'L).

Within each of the categories, the research presentations address the distinctiveness of osteopathic medicine and its impact on one of the following research areas:

- Chronic Diseases and Conditions
- Acute and Chronic Pain Management
- Impact of Osteopathic Manipulative Medicine (OMM) and Osteopathic Manipulative Treatment (OMT)
- Musculoskeletal Injuries and Prevention
- Osteopathic Philosophy
- Health Disparities/Social Determinants of Health
- International Health

Physicians can claim up to two (2) AOA Category 2-B Credits by viewing the recorded ePosters over the next year. To claim these credits and receive a certificate, the participant must complete and submit a separate attestation form, which will be available in the Poster Gallery or during the live virtual poster sessions.

AOA Poster Session and Student Poster Competition Registration Instructions

To participate in the Student Poster Competition, [click here to register](#).

1. Click “Register for Event”
2. Enter your email address
3. Create your account
4. You will receive an email from “Remo” confirming your registration. Keep this email so you can set up your profile.

You only need to register once.

For additional information, contact Gloria Dillard at gdillard@osteopathic.org.

Poster Number	PI Name	Organization Name	Category	Research Topic	Project Title

Striking a Balance: Understanding Pain Management and Opioids – Featuring Annette Carron, DO, FACOI, FAAHPM, CMD

In this session, Dr. Carron will discuss how to accurately assess patients in pain, develop a safe and effective pain treatment plan, identify evidence-based non-opioid options for the treatment of pain, and recognize behaviors that may be associated with opioid use disorder. Session participants will also learn to identify the risks and benefits of opioid therapy and how to manage ongoing therapy with patients.

This course meets the Drug Enforcement Agency (DEA) and the Substance Abuse and Mental Health Services Administration (SAMHSA) Medication Access and Training Expansion (MATE) Act. The Act requires new or renewing DEA registrants, as of June 27, 2023, to have completed at least eight hours of training on opioid or other substance use disorders.

1.5 hours of CME (1.5 AOA Category 1-A Credits or 1.5 AMA PRA Category 1 Credits™). To be considered a completer of this session, please complete this required post-test and evaluation. It will take approximately 10 minutes. Your survey responses will be strictly confidential. Please use the QR code or click on this link to access the survey: <https://www.research.net/r/2MN8T2G>.

This symposium is supported by a medical education grant from CO*RE-REMS.

Annette Carron, DO, FACOI, FAAHPM, CMD
Interim Medical Director of Geriatrics and Palliative Care,
Henry Ford Macomb Hospital
Clinical Associate Professor, Michigan State University
College of Osteopathic Medicine
Past President, American College of Osteopathic Internists

Annette Carron, DO, FACOI, FAAHPM, CMD, serves as interim director in the Department of Geriatrics and Palliative Care at Henry Ford Macomb hospital in Clinton Township, MI. She also serves as associate medical director for Heart to Heart hospice. Dr. Carron has been practicing in long-term care and hospice and palliative medicine for 30 years and is board certified in internal medicine, geriatrics, and hospice and palliative medicine. She has spoken frequently on pain management, including helping present the American Medical Association Educating Physicians on End-of-Life Care (EPEC) curriculum. Dr. Carron is also Assistant Clinical Professor of Internal Medicine at Michigan State University College of Osteopathic Medicine and is past president of the American College of Osteopathic Internists.

Applying Guideline-Directed Care for Patients With T2D: Focus on Glucagon-Like Peptide-1 Receptor Agonists – Featuring Jay Shubrook, DO, FACOFP, and Kathleen Dungan, MD, MPH

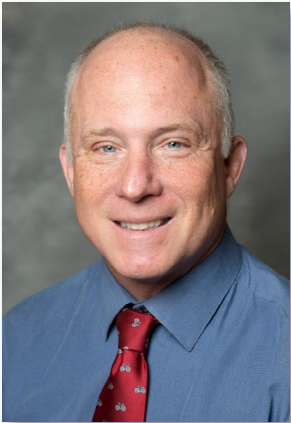

In this session, Drs. Shubrook and Dungan will explain how glucagon-like peptide-1 receptor agonists (GLP-1 RAs) function in treating type 2 diabetes (T2D) and their extra-glycemic effects, examine safety considerations related to GLP-1 RAs, explore effective approaches for addressing adverse events associated with their use, and evaluate the guidance for comprehensive approaches to care and early management of T2D.

This course meets the Drug Enforcement Agency (DEA) and the Substance Abuse and Mental Health Services Administration (SAMHSA) Medication Access and Training Expansion (MATE) Act. The Act requires new or renewing DEA registrants, as of June 27, 2023, to have completed at least eight hours of training on opioid or other substance use disorders.

1.25 hours of CME (1.25 AOA Category 1-A Credits or 1.25 AMA PRA Category 1 Credits™). To be considered a completer of this session, please complete this required post-test and evaluation. It will take approximately 2 minutes. Your survey responses will be strictly confidential. Please use the QR code or click on this link to access the survey: <https://www.research.net/r/2N2JTRF>.

This symposium is supported by an independent education grant from Novo Nordisk Inc.

Jay Shubrook, DO, FACOFP

Jay Shubrook, DO, FACOFP, is a board certified family physician and a fellowship-trained diabetologist. He is a professor at Touro University California, where he also serves as the Director of Diabetes Services. His research focus is on the prevention and early intervention for type 2 diabetes. His clinical and professional focus is on better training the primary care workforce to be prepared to help people manage diabetes. He is the Associate Editor of Clinical Diabetes. He is the Chair of the Executive Board of the American College of Diabetology, which is a new pathway to recognize primary care physicians who provide excellence in diabetes care. He recently published his first book, *Everyday Diabetes: Case Studies in Primary Care*, which is available online.

Kathleen Dungan, MD, MPH

Kathleen Dungan, MD, MPH, is an Associate Professor of Medicine in the Division of Endocrinology, Diabetes, and Metabolism at The Ohio State University (OSU), where she also serves as Associate Director of Clinical Services for the Division and Director of Endocrine Clinical Trials. Dr. Dungan earned her medical degree from OSU College of Medicine, completed her residency and fellowship at the University of North Carolina, and returned to OSU to earn her Masters in Public Health. She has served as principal investigator, steering committee member, or national lead for a variety of clinical trials and has published widely on inpatient and outpatient diabetes therapeutics. An Associate Editor for Endotext, Dr. Dungan has served on planning committees for the American Diabetes Association and the Endocrine Society.
